

Ashes Scattering at Sea Atlantic City, NJ

Helping Families Fulfill Their Wishes for a Memorial Service at Sea

Attended Service for Burial / Ashes Scattering at Sea

For those families wishing to attend the voyage, Metamorphosis Boat Charters provides scattering service tailored to the family's preference. You may choose to have the Captain conduct the service or provide your own — we will provide a basket of seasonal flower and slowly circle the site before returning to harbor. Afterwards, we will file the paperwork and send you a photocopy and a Certificate of Scattering with the date and location of scattering.

Unattended Scattering at Sea

Often families cannot venture to sea or attend a sea scattering service. Our captain brings the cremated remains on an ocean voyage for you. A dignified sea scattering or burial at sea is performed and documented, with that documentation provided to you. Family is able to Skype or FaceTime into the scattering live at no additional charge

Location of Scattering

Compliant with EPA requirements, ashes will be scattered no closer than 3 nautical miles from land.
